

Shantanu Bhapkar

Software Developer

Nagpur, Maharashtra . shantanubhapkar@email.com . +91 9172557279 . [GitHub](#) . [LinkedIn](#)

ABOUT

Backend-focused developer with hands-on experience building REST APIs using Node.js, Express, PostgreSQL, MongoDB and Redis. Comfortable with system design concepts like caching strategies and rate limiting. Looking for a backend or full-stack role where I can contribute and grow.

PROJECTS

URL Shortener API

Node.js . Express . TypeScript . PostgreSQL . Redis

GitHub: github.com/ShantanuBhapkar/URL_Shortner Live: url-shortner-igl9.onrender.com

- Built a URL shortening service with Redis caching layer to reduce database load
- Implemented click tracking and analytics endpoint per short code
- Added rate limiting (10 req/min per IP) to prevent spam and abuse
- Deployed on Render - TypeScript backend with PostgreSQL as persistent store

Post Away - Social Media API

Node.js . Express . MongoDB . Mongoose . JWT

GitHub: github.com/ShantanuBhapkar/Post-Away-socialmedia Live: post-away-api.onrender.com

- Built a full-featured social media REST API with user auth, posts, comments, likes and friend requests
- Implemented JWT-based authentication middleware protecting all private routes
- Added OTP-based password reset flow with email delivery
- Deployed on Render with MongoDB Atlas as cloud database

E-Commerce Backend API

Node.js . Express.js . MongoDB . Mongoose . JWT

GitHub: github.com/ShantanuBhapkar/E-Commerce-API

- Built scalable REST API with product catalog, categories, shopping cart, order management and JWT auth
- Used MongoDB transactions to ensure atomicity across cart and order operations
- Wrote aggregation pipelines for cart totals, order summaries and product filtering by category
- Optimised MongoDB schemas for query performance; added request logging and robust central error handling

SKILLS

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Databases: MongoDB, Mongoose, PostgreSQL, MySQL / SQL, Redis

Frontend: HTML, CSS, JavaScript

Language: Java, JavaScript, SQL

Tools & Concepts: Git, Postman, Render, Caching Strategies, Rate Limiting, API Design

EDUCATION

B.E. - Electronics & Telecommunication

2020 - 2024

Pimpri Chinchwad College of Engineering, Pune . CGPA: 7.5 / 10

HSC - Science

2020

Adarsh Sanskar Vidyalay . 75%

LANGUAGES

English (Professional) . Marathi (Native) . Hindi (Fluent)
